

## Landcare Support Program Factsheet 3

September 2015

# Landcare Community of Practice

The \$15 million 2015-2019 NSW Landcare Support Program builds on the achievements of the 2011-2015 Landcare Support Program. It includes a Landcare Community of Practice Initiative.

The Community of Practice is a centralised support team that will increase the activity and effectiveness of the Landcare network through a consistent approach to building community capacity across the State.

The Landcare Community of Practice activities provide essential support to the organisations hosting the Local Landcare Coordinator Initiative, as well as increasing the capacity, and connectedness of the Landcare community.

### Phase 1 (July 2015-December 2015)

While the detailed planning for the program is completed, transitional support will be provided to the community through the following activities:

**Gateway website** – The NSW Department of Primary Industries will maintain the site.

**Database** - Landcare NSW will continue to collect information from groups while long-term database arrangements are finalised.

**Member Services** - Landcare NSW will continue to support public enquires and provide governance advice.

### Phase 2 (January 2016-June 2019).

Activities delivered over this period will be based on input gathered during Phase 1. It is anticipated that the following activities will be developed and supported:

- Communications – including Gateway website
- Data collection from the Landcare community
- Member support, including advice on governance, incorporation, insurance etc
- Regional and State forums and activities
- State Landcare Conference and Awards
- Training events for the Local Landcare Coordinator Initiative, networks and groups.
