Clarence Landcare Member Group numbers

## Clarence Landcare Member Group Health

In September 2016 we asked our member groups to rank the health of their group according to the criteria table below. The pie chart presents the results.

### 1. PROVIDE SUPPORT FOR MEMBERS TO ACHIEVE ON GROUND CHANGE

#### WORKING TOWARD THIS OBJECTIVE BY:

- 1.1 Maintaining the Clarence Landcare network structure and membership
- 1.2 Providing governance support and assistance to member groups
- 1.3 Assisting in liaison between local and state government land managers
- 1.4 Identifying training / information needs & members on ground issues
- 1.5 Act as a project sponsor for groups to apply for grants
- 1.6 Manage NRM projects over multiple properties

Trail Blazers	Our group has its own identity and strives for excellence. We are clear on what we are trying to achieve and our role in achieving it.
Thriving	We are very motivated and have an action plan that we actively work towards. We have good geographic representation from our local area.
Rolling Along	Our group has an action plan or plans to develop one. We feel we are making progress and are working within our current capabilities.
Stable	Our group is in a stable situation and achieving what it needs to.
Struggling a little	Our activities are often prompted by a funding round or a call from the support person. Our group feels like it is dwindling in interest and numbers.
Surviving	Our meetings are irregular and only a few core members come. There are little or no on-ground works happening.
Barely Hanging On	We have effectively stalled. We meet rarely (or have chosen to be in recess) and are not currently undertaking any group activities or projects.
