

## Natural Disaster Assistance Guide for Primary Producers

The impact of fires, floods and other natural disasters can affect primary producers beyond their own resilience levels, requiring assistance to recover personally and financially.

NSW Department of Primary Industries (NSW DPI) and Local Land Services (LLS) coordinate and provide recovery assistance and advice to landholders, primary producers, commercial fishers and other industries impacted by a natural disaster event.

- Land is compulsorily acquired or resumed under an Act
- a state or territory leases land for a cattle tick eradication campaign
- pasture or fodder is destroyed by fire, drought or flood and you will use the proceeds of the disposal or death mainly to buy replacement stock or maintain breeding stock for the purpose of replacing the livestock
- they are compulsorily destroyed under an Australian law for the control of a disease (including bovine tuberculosis) or they die of such a disease
- you receive official notification under an Australian law dealing with contamination of property.
