## About Landcare New South Wales

*Landcare NSW's mission is to care for the land and the environment. The Landcare movement is a community-based approach to managing and protecting our natural resources – creating more productive and sustainable farms, conserving our environment, and building more cohesive and resilient communities. Landcare connects you to on-ground activities where you can volunteer with like-minded individuals who have a passion for caring for country.*

## About the State Muster

*The State Muster though not part of the governance system of Landcare NSW, is the primary in-person engagement and idea-sharing forum for Landcare Member Groups and their volunteers. The State Muster celebrates the achievements and reflect the needs and preferences of Landcare Member Groups. The agenda and frequency of State Muster will be determined by the Landcare Member Groups and their volunteers.*

## Purpose of 2022 Landcare NSW State Muster

*How do we create a culture that enables the NSW Landcare community to be more resilient?*
